ENTRY INTO THE JUVENILE JUSTICE SYSTEM

The Court Improvement Project is now working with juvenile justice cases. The data reports are expanding to include data about juvenile justice in the state and for your team. This year, we are including data about the number of arrests and petitions filed, juvenile diversion programs, and probation. Our data sources for this section include Voices for Children, **JUSTICE**, the Nebraska Crime Commission, and the office of Probation. In the future, we hope to include more data such as juvenile justice case progression.
